REASONS FOR ALLOWANCE

Allowable Subject Matter

1. Claims 1-42 are allowed over the prior art of record.
2. The following is an examiner's statement of reasons for allowance: The IDS filled on 7/20/2007 has been considered. The Applicants has filed an RCE dated 5/22/2007 for the purpose of perfecting a claim of priority and has amended the claims on 7/20/2007 to clarify the scope of the invention. The bibliography data sheet has been updated to include the following claim of priority: "This application is a CIP of 08/676,517 7/2/1996 Patent 6,005,534 which claims benefit of 60/017,403 5/14/1996." As previously mentioned, the Applicant's arguments filed on 12/27/2006 are persuasive. The Applicant has provided a **Terminal Disclaimer in view of Application Number 09/821,969**, now patent RE39470. The Applicant has amended claims 4-8, 10, 14-19 and 21 as filed on 2/5/2007 to correct multiple dependant issues. The Applicant has added new claims 22-42 as filed on 7/20/2007 to clarify the scope of the invention. The feature of claims 1 and 11 directed towards allowable subject matter is the feature including a method or arrangement for coordinating and controlling television sets or cameras in a digital information system for displaying information on at least one display, said system having an exposure list comprising control instructions for coordinating and controlling television sets in combination with updating said exposure list in real time with control instructions fields via dynamic booking of information in time for exposure from said mediators. The feature of independent claims 22 and 32 directed towards allowable subject matter is the feature including generating an exposure list, updating said exposure list in real time, wherein the exposure list enables each electronic display to be controlled independently of other electronic displays, and having dynamic booking information. These features, in combination with the other limitations of the claims, make them allowable over the prior art of record. Schmier

generally teaches of a dynamically updated information system but is lacking the structure and information flow as claimed, as well as the specifics of the exposure list. Therefore said features in combination with the other limitations of the above independent claims are found allowable over the prior art of record.

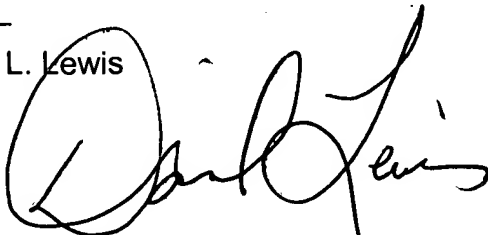

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to **David L. Lewis** whose telephone number is **(571) 272-7673**. The examiner can normally be reached on MTWTHF from 8 to 5. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Bipin Shalwala, can be reached on **(571) 272-7681**. Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Group receptionist whose telephone number is (571)-273-8300.

5. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
